

PRESS RELEASE

New application: ScanTacts

August 13th 2016

Approved Apps launched its first application on Saturday August 13th: ScanTacts. The application is now available in the Google Play Store and App Store.

ScanTacts is the new way of exchanging contact info. No more hassle with business cards or fiddling with phones. Generate your personal QR code once and start sharing your credentials and scanning your contacts! To make life even easier, you don't need a separate QR-scanner, there is already one included in the app. ScanTacts is available for free.

About Approved Apps

Approved Apps is a young and ambitious startup, founded in 2015. In this digital era, one cannot imagine a life without a smartphone anymore. Approved Apps' main goal is to make the life of every smartphone user easier by creating useful apps. In pursuing this mission, Approved Apps creates applications available for both Android and iOS.
